

**TECHNICAL**

**CONTAINER TYPE** **20'**

Maximum gross weight	35,000kg
Tare weight	3,130kg
Payload	31,870kg

**Internal dimensions** (nominal)

Length	5,857mm
Width	2,380mm
Height	2,688mm

**External dimensions** (nominal)

Length	6,058mm
Width	2,462mm (2,438mm at end frames)
Height	2,896mm
Door opening	
Width	2,380mm
Height	2,608mm

Cubic capacity	37.5 cu m (1,324 cu ft)
----------------	-------------------------

**Hatches**

3 x Roof hatches	610mm (diameter)
2 x Door "bleed" hatches	400mm (height) x 300mm (width)

# 20' Hicube Bulker

**Meeting shipper and operator demand for a flexible bulk container**

- **Versatile and robust**
- **Designed for ease of operation**
- **Incorporates 3 roof loading hatches, 2 bleed hatches and a full-width front-discharge hatch**
- **External width of 2,462mm allows maximum cube**
- **Fully compatible with all vessels and transportation modes**

This unique piece of equipment features steel flooring, 3 roof loading hatches, 2 bleed hatches (one in each rear door) and a full-width front discharge hatch, while heavy duty fork lift pockets, a high "pallet guide" bottom side rail and door ladder rungs also contribute to ease of operation. An external width of 2,462mm allows maximum cube and also facilitates side-by-side stowage of Australian pallets.

The Price & Speed Hicube Bulker uses a special rubber-based internal paint system, which offers excellent protection against abrasion and chemical attack.

Standard width end-frames make this container fully compatible with all vessels and transportation modes. This is a truly versatile and user-friendly piece of equipment.

Price & Speed also builds 'special' bulkers to order. These include 40' four-hatch units and 30' Hicubes. An internally-lined version can also be supplied to order. Price & Speed has extensive experience in the bulk industry, meaning we are able to provide customers with highly-tailored specifications for these customised products under special purchase agreements.
