

Archive Containers

Fully fitted with shelving and/or a work bench.

The shelving in Price & Speed's archive containers is built to a standard size to properly accommodate archive boxes, enabling quick and easy deposit and retrieval of your important documents.

At Price & Speed we appreciate that your archived documents could contain confidential or sensitive information, therefore we feel security is of paramount importance. Because of this, all Price & Speed archive containers employ a twin locking system to assist in the prevention of theft or vandalism.

All Price & Speed archive containers have been designed with protection from the elements and rodents in mind. They are fully sealed to give you peace of mind, knowing your documents are safe and sound at all times.

Options

Lighting and powerpoints are fitted on request. Simply tell us where you would like them positioned. It's that easy!

If your site isn't ideal for the storage of your archive container, feel free to store onsite at Price & Speed. Our secure site is perfect for storage and is easily accessible.
